DIGITAL IMPRESSIONS

What's New?

ADAMS™ FEATURED PRODUCT:
DIGITAL WEB VIEWER

The ADAMS Digital Web Viewer allows anyone with access to a case or an asset within a case to retrieve and view that case or asset in a browser environment. This module is especially useful for supervisors, officers, technicians and crime scene investigators. Digital Web Viewer provides multiple search methods and a variety of views to fit the task at hand. Audit Trail logs are updated each time an asset is accessed by Digital Web Viewer. This application uses the same security and creates audit trail entries for the same actions as the standard desktop applications.
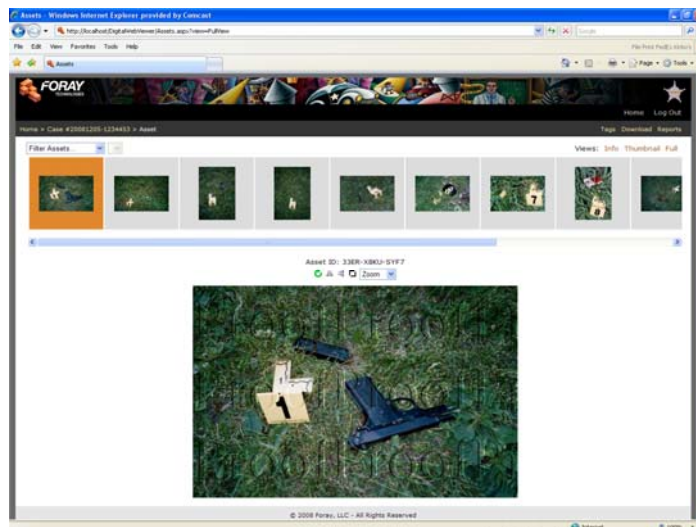

YOU'RE DIGITAL – NOW WHAT?

Did you know that Foray Technologies offers Consulting Services?

Foray Technologies' on-site consultation services will help your department identify the best practices and solutions for managing and preserving the integrity of your digital evidence including:

- File Acquisition & Input
- Image Processing
- File Storage and Management
- File Output
- *And much more!*

We will also review your current work flow to help determine what your specific needs are as well as determine what type of hardware, software and training you need.

Contact a Foray Technologies representative at (619)858-1360 for more information on our Consulting Services

DIGITAL IMAGING TRAINING GOES ABROAD

Teaching forensic imaging techniques in Switzerland & Croatia:

David "Ski" Witzke was a keynote speaker and conducted hands-on, advanced, digital imaging workshops at the 8th Annual Meeting of the European Network of Forensic Science Institutes (ENFSI) Fingerprint Working Group in Split, Croatia. The ENFSI Fingerprint Working Group promotes the development and improvement of best practices and techniques in fingerprint detection (location and recovery), digital imaging, and comparison and identification.

Countries represented at this conference included Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Netherlands, Norway, Poland, Portugal, Romania, Russia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey, Ukraine, and the United Kingdom. For the first time ever, attendees from South Africa also attended the ENFSI Conference. Each country represented at the ENFSI Conference was given a copy of Foray Technologies' Image Calibration Utility and the Grayscale Pattern Removal Filter.

Immediately after the ENFSI conference, Ski went to Berne, Switzerland, where he conducted three, one-day hands-on advanced digital imaging workshops for the Swiss Federal Department of Justice and Police (FDJP) Federal Office of Police (Fedpol). The classes in Switzerland were translated by Dr. Axel Glaeser, Head of the FDJP Fedpol AFIS DNA Services.

Ski said he had such a great time on this trip that he wasn't ready to come home when the training was done.

Could your agency benefit from digital imaging training?

Look at hosting a digital imaging training course for your personnel and other agencies in your area!

MEET THE NEW GUY!

Please welcome Jason Guffey to our Technical Services Team as a Customer Service Engineer. Jason Guffey has 10 years of experience as a Crime Scene Investigator and over 20 years of Professional Photography experience. He has served with the Charlotte-Mecklenburg Police Department, Union County Sheriff's Office, & Stanly County Sheriff's Office. He was responsible for documenting, collecting and preserving physical evidence at various crimes scenes such as homicides, suicides, robberies, sexual assaults, child abuse and assault with deadly weapons. He has also performed blood detection, shooting reconstruction and fingerprint development and processing at the various scenes. Jason has provided expert witness testimony in criminal and federal court proceedings and is an active member of the International Association for Identification (IAI) and The North Carolina Chapter (NCIAI). He's currently on the sub-committee board for Forensic Imaging (IAI) and the Fuji Talent Team for Law Enforcement Training-Forensic Team where he teaches the Forensic Photography and the Advanced Crime Scene Photography workshops. In addition, Jason is currently a master instructor in forensic photography and works part time with Charlotte-Mecklenburg Police Department and Central Piedmont Community College for General Forensics Training.

TECHNICAL TIPS:

Did you know that ADAMS™ users can create and track their own support tickets in the Foray Technologies Online Support Center?

At the Foray Technologies Support Center website, users can create and submit technical tickets, get information on ADAMS application updates as well as access release notes and knowledge base articles.

If you are an existing ADAMS client, be sure to register a new account and take advantage of the ability to track your tickets and receive the latest product updates and information by using the Support Center.

Simply go to our Support Center website at http://support.foray.com/. Register a new account and sign in.
